

# The 35<sup>th</sup> International Conference of the System Dynamics Society 60<sup>th</sup> Anniversary Celebration

**Cambridge, Massachusetts, USA**

**July 16-20, 2017**

## CALL FOR PAPERS

2017 marks the 60<sup>th</sup> anniversary of the founding of the field of System Dynamics. It is thus fitting that we hold this milestone conference in Cambridge, Massachusetts, next to the MIT campus where Jay Forrester developed the field. Today, System Dynamics is used around the world, from K-12 classrooms through doctoral programs, in scholarly research across many disciplines, and in applications from organizational change to climate change, from medicine to management. We will celebrate the accomplishments of the last six decades and explore future directions by showcasing the best work in dynamic modeling being done today. Papers may be submitted from February 2, 2017 to March 22, 2017.

Tentative threads:

- **Business**
- **Economics**
- **Environment**
- **Health**
- **Human Behavior**
- **Information and Knowledge**
- **Learning and Teaching**
- **Methodology**
- **Operations**
- **Public Policy**
- **Resources**
- **Security**
- **Stakeholder Engagement**
- **Strategy**

### **Program Chairs**

John D. Sterman

*Massachusetts Institute of Technology*

Nelson Repenning

*Massachusetts Institute of Technology*

### **Workshop Chairs**

Jack B. Homer

*Homer Consulting*

Hazhir Rahmandad

*Massachusetts Institute of Technology*

### **Conference Manager**

Roberta L. Spencer, Executive Director

*System Dynamics Society*

### **Venue**

Hyatt Regency Cambridge

E-mail: [conference@systemdynamics.org](mailto:conference@systemdynamics.org)

### **Call for Papers, Workshops & Sessions**

Opening date **February 2, 2017**

Submission deadline **March 22, 2017**

Hosted by **System Dynamics Group**  
**Massachusetts Institute of Technology,**  
**Sloan School of Management**
